To whom it may concern,

I am asking you to reconsider the passing of this bill. As an American and a 2nd ammendment supporter, we must stop chipping away at our freedoms one small piece (aka "bill") at a time. This is not NAZI

Germany, or any present nation having similar political laws!

Save the Communist tactics for the real enemies of our Country, ie isis, al queda, and other extremists and terrorists. If we don't stop

Majoring in minor trivial rhetoric, we will have more than document checking to worry about!!!

Respectfully yours; Peter D. Northrup, Veteran, AMERICAN
